

ADAPTABLE WHEEL LOCK

# ADLOCK

## Introducing the ultimate wheel lock "ADLOCK"!!

### For Imported Vehicles

Wheel Theft Prevention Locking Bolts  
Can choose from a selection of Bolt sizes!!  
Works with Spacer equipped vehicles tool

Patent pending

### World First!! The Ultimate Wheel Lock!!

ADLOCK is a revolutionary wheel lock that provides maximum protection by providing unique individual key patterns. It is also compatible with cars that have different bolt sizes from the front and rear.

ADLOCK application vehicles: M. BENZ, BMW, NEW MINI, VW, AUDI, OPEL, VOLVO etc...

Unlimited Bolt Sizes Works with Spacer Equipped Vehicles!

Works with any Wheel Bolt, Wheel Nut system!!

Can be used easily with all standard Wheel Bolts and Wheel Nuts.

Infinite key patterns protect your valuable wheels!!

Infinite key pattern variations securely guard your prized wheels.

Transforms your current Wheel Bolt and Wheel Nuts into Lock Bolt and Lock Nuts!!

Simply press fitting these on your current Wheel Bolts and Wheel Nuts turns them into Lock Bolts and Lock Nuts.

Previous Lock Bolts and Lock Nuts had limited key patterns with copies readily available to anyone who asked for it. This increased the likelihood of theft.

### A unique key pattern protects your wheels from would be thieves!

17HEX BOLT SIZE (Applicable Bolt/Nut Size : M12/M14)

Thread Type	Head	Thread Type	Head	Round Type (H2R)	Head	Round Type (H2R)	Head	Round Type (H2R)	Head
M12 x P1.5	20mm	M14 x P1.5	20mm	120 - M12 x P1.5	20mm	140 - M14 x P1.5	20mm	140 - M12 x P1.5	20mm
M12 x P1.5	30mm	M14 x P1.5	30mm	120 - M12 x P1.5	30mm	140 - M14 x P1.5	30mm	140 - M12 x P1.5	30mm
M12 x P1.5	40mm	M14 x P1.5	40mm	120 - M12 x P1.5	40mm	140 - M14 x P1.5	40mm	140 - M12 x P1.5	40mm
M12 x P1.5	50mm	M14 x P1.5	50mm	120 - M12 x P1.5	50mm	140 - M14 x P1.5	50mm	140 - M12 x P1.5	50mm
M12 x P1.5	60mm	M14 x P1.5	60mm	120 - M12 x P1.5	60mm	140 - M14 x P1.5	60mm	140 - M12 x P1.5	60mm
M12 x P1.5	70mm	M14 x P1.5	70mm	120 - M12 x P1.5	70mm	140 - M14 x P1.5	70mm	140 - M12 x P1.5	70mm

Compatible with most European vehicles using a Wheel Bolt and Wheel Nut. Press fitting allows for use with all types!

## <Installation of ADLOCK onto your current Bolts>

1-A When using a press  
Set the product in order according to Lock Socket, ADLOCK cap, Wheel Bolt, Press as pictured.

1-B If a Press is not available  
Mount a disposable Wheel Nut (Same size as the Bolt) onto the Wheel Bolt so that the thread does not stick out. Then mount the ADLOCK cap and Wheel Bolt

2-A Use a Press to press fit  
Press fit all the way making sure that the ADLOCK cap and HEX Bolt positioning is correct.  
Press Fit distance should be approx 11mm. Excessive pressure will break or cause damage to the bolt.

2-B Press fitting with a Vice  
Mount the properly aligned ADLOCK cap and Hex bolt onto the vice. Use the vice to securely press fit.  
Be sure to turn the vice slowly for straight fit.

2-C Press fitting with a Vice  
Use a steel pipe or extension handle if the handle of the vice becomes difficult to turn  
Please contact our store in case of press fitting difficulties. Our staff can assist in press fitting.

3 Tightening the Lock Screw  
Screw the Lock Screw into the side hole of the ADLOCK cap and tighten with a hex wrench

4 Mounting the Dust Cover  
After tightening the Wheel Bolts to proper torque settings, install the dust cover according to the photo.
